**Brief Summary and Statement of Need:**

Continue development and enhancement of the statewide framework for Motor Vehicle Emission Simulator (MOVES) modeling in Alaska to ensure consistent development, application, and approval of modeling workflows (e.g., input data collection and processing, model setup and execution requirements, post-processing of outputs, etc.) in all regional mobile source inventory applications envisioned within the state.

**Project Description/Justification:**

Continue development and enhancement of the statewide framework for Motor Vehicle Emission Simulator (MOVES) modeling in Alaska to ensure consistent development, application, and approval of modeling workflows (e.g., input data collection and processing, model setup and execution requirements, post-processing of outputs, etc.) in all regional mobile source inventory applications envisioned within the state. These regional applications include State Implementation Plans (SIP) emissions/emission budgets and transportation conformity emission inventories, National Emission Inventory (NEI) submittals to the Environmental Protection Agency (EPA) that consist of both planning and episodic modeling inventories throughout the state. Continue the support of the EPA requirement to use MOVES for local communities and state.
